

DigiTalk conversation cards

DigiTalk

To say a few weeks into the school year:

I bet you're using new programs at school this year – what has it been like **to sign up and get started** with them?

digitalk.org.au

DigiTalk

Just like we have locks on our doors to keep our home safe, we need to be cautious about our online information. What do you think about **protecting our virtual space** with good privacy settings?

digitalk.org.au

DigiTalk

We've had talks about being good citizens in our community. How do you think we can be good digital citizens online? What **responsibilities** do we have?

If they aren't sure, suggest that these might be things like 'keeping our information private' and 'not sharing our friend's information' and explore how that looks online.

digitalk.org.au

DigiTalk

Sometimes, we need to decide what information to share and what to keep private online. **What kind of information** do you think is okay to share, and are there things we should keep just for ourselves?

digitalk.org.au

DigiTalk

When you sign up for new programs, they ask for information. Why do you think they need that information, and **how do you feel about sharing it?**

digitalk.org.au

DigiTalk

It's okay to ask questions about the information they're asking for.

What kind of questions do you think are important to ask when you're sharing your details online?

digitalk.org.au

DigiTalk

Can you show me the programs you're using in school? Let's explore them together and check if there are **any settings we should be aware of** to keep our information safe.

digitalk.org.au

DigiTalk

Being responsible online means making good choices about what we share. Can you think of a situation where you had to make a choice about **what information to share or not share?**

digitalk.org.au

DigiTalk

Let's talk about some family rules for online privacy. What do you think are **good guidelines for us to follow** when using technology at home?

To support you in building this out, we suggest exploring our 'Screen Smart Plan' to discover how your family can set up rules about tech at home.

How to use your DigiTalk conversation cards at home:

Step 1:

Print out this sheet and cut out the DigiTalk conversation cards.

Step 2:

Choose an option that suits your family – you can try one approach or experiment with all three.

Option 1 - Choose your own adventure: Place the cards on your kitchen table face down and draw a card from the deck. Use that to start your chat.

Option 2 - Plan the week: Stick a different card on the fridge each week and make it a priority to chat about that topic some time across the week.

Option 3 - Share the responsibility: Lay out all the cards on the table face up. Take turns with your child and each choose a topic to discuss until you have worked through them all.

No matter how you choose to use the cards, it's important to have the DigiTalk. And don't forget, these topics are just the start. Your family's DigiTalk should grow and evolve along with your family.
